He says if the Tammany Hall General Committee wants reform in the city they shall have it if the Police Department can give it to them. It was expected that Tammany would to-day formally prefer charges against Charlick and demand his removal by Mayor Havemeyer. The charges are that gross frauds were committed in certain districts, that Inspectors of Election were changed when thought necessary to defeat certain candidates, and that policemen were dismissed from employ of the city where they were thought to be friendly to certain candidates. It is also said that there are serious charges against Police Superintendent Matsell with regard to his management and alleged manipulations of election returns, using the police force to affect his purposes.

WASHINGTON CITY

Diplomatic Affairs.

WASHINGTON, Nov. 8.—Official dispatches received by the Department of State show that the *Virginius* was captured six miles from the coast of Jamaica. At the instance of Minister Sickles instructions were sent from the Government at Madrid to await orders from the Home Government before inflicting penalties on the passengers or crew of the *Virginius*. This order was probably received on the evening of the 4th or the morning of the 5th—too late, as appears from dispatches received from Cuba to-day, to be respected.

John Meredith Read, Consul General at Paris, has been promoted to the position of Minister Resident of Greece, vice John M. Francis, resigned. [illegible] Torbert, Consul General at Havana, has been appointed to Read's place at Paris. Henry C. Hall is appointed to the Consulship at Havana.

The Virginius Matter.

CHICAGO, Nov. 8.—An *Inter Ocean* special says the news of the execution of Gen. Ryan and several other Cuban officers has not created much excitement. Ryan was generally regarded here as an adventurer of very small calibre and one who was an injury rather than a help to the Cuban cause. The *Virginius* is regarded at the State Department as in no proper sense an American vessel, and it seems certain that those who made her capture a pretext to try to involve our Government with Spain will meet with very poor success. Both Gen. Ryan and Gen. Verona left for Cuba in [illegible] of an order printed here on the 2d of September purporting to be from the President of the Cuban Republic directing the absent officers to return. The order was believed to be a forgery printed here simply for effect.

Carl Schurz on the Situation in Europe.

CHICAGO, Nov. 8.—A Washington special says Carl Schurz has come back from Europe well satisfied with the relative prosperity of America. He says Austria is rotten, France haggard, Spain hopeless and North Germany [illegible] with a great influx of money.

Schurz left this morning for St. Louis.

More Nepotism.

WASHINGTON, Nov. 8.—There are very few members of the incoming Congress in the city.

Left for San Francisco.

WASHINGTON, Nov. 8.—Dr. Linderman, Director of the Mint, left for San Francisco to-day on business connected with the fitting up of the new Mint in that city.

Second Assistant Engineer C. J. Habighorst has been ordered to duty at the naval rendezvous at San Francisco in place of Second Assistant Engineer J. J. Ryan, deceased.

French News.

LONDON, Nov. 7.—Paris dispatches say that the Left abstained from voting for President of the Assembly yesterday.

PARIS, Nov. 7.—The Bureaux of the Assembly met to-day to nominate a committee on the prolongation of President MacMahon's powers. Three Bureaux in which the Left have a majority postponed action until Saturday. In twelve remaining Bureaux seven members of the Right and five of the Left elected Republicans, and consequently the Left have a majority in committee.

[illegible]

PARIS, Nov. 8.—The three Bureaus of the Assembly which adjourned until to-day the naming of their members of the committee on the prolongation of President MacMahon's power have elected Count de Remusat, Leon Say and Laboulaye, all members of the Left. These elections give the Republicans a majority of one in the Committee. The result caused most intense excitement. The Right, which on the opening of the Assembly submitted a resolution for prolonging President MacMahon's powers for ten years, has offered as a compromise to make the term five years. All the Ministers tendered their resignations to President MacMahon this afternoon, but he declined to accept them.

The Bazaine Trial.

PARIS, Nov. 8.—In the Bazaine court martial to-day Marshal Canrobert and General Admirault testified that to their knowledge no dispatch was received at Metz from Marshal MacMahon on the 23d of August. They also swore that MacMahon's advance was not alluded to by Bazaine in the council of war held on the 26th of August.

Exciting Intelligence from London.

LONDON, Nov. 8.—There is decidedly a better feeling in the market this morning.

LONDON, Nov. 8.—It is the general opinion on exchange that the rate of discount at the Bank of England will be advanced on or before Thursday at noon. The bank directors posted a card announcing that no change has yet been made in the rate.

President Castelar and General Sickles, U. S. Minister, were in conference for a considerable time yesterday. The capture of the *Virginius* is understood to be in consideration.

LETTER FROM OLYMPIA

OLYMPIA, Nov. 7, 1873.

THE FUNERAL

Of Mr. Saml. Holmes took place from the Presbyterian church to-day, under the direction of the Odd Fellows, who together with the Good Templars escorted the remains to the Odd Fellows cemetery, notwithstanding an incessant fall of rain which has continued for two days without ceasing. The services in the church were conducted by Rev. Mr. Woodward, of the M. E. Church, in the absence of the pastor, Mr. Thompson.

BURGLARY

I regret to say that Mr. A. J. Littlejohn's auction store was last night broken into, and about sixty dollars' worth of revolvers, jack knives, gloves and socks abstracted.

INDIAN AFFAIRS

Quite a sensation has been created by the sudden suspension of Gen. Milroy, and the appointment of Marshall Blinn, Esq., as Indian Superintendent temporarily, by direction of Col. Kimble, Inspector of Indian Affairs. I trust that after an investigation on the subject our honored and respected Superintendent may be restored to office without a single stain to mar the high record which he bears amongst us as an honorable and honest gentleman.

WASHINGTON TERRITORY LEGISLATURE

Fourth Biennial Session.

[From our Special Correspondent.]

OLYMPIA, Nov. 7, 1873.

I shall preface this report by returning thanks to Messrs. Hodges, Frush and Eby for favors shown and important information given at various times during the session.

House opened at usual hour. Mr. Speaker in the Chair.

Committee to whom H. B. 128, appropriating $500 per annum to pay the expenses of the Centennial Commissioner, was referred, reported the bill back without recommendation. Considerable discussion took place on the subject as to whether the Territory [illegible] or not. After being read three times the bill was lost.

[illegible] for a boom on Snohomish river. Passed.

H. M. [illegible] praying Congress to declare Snohomish river and tributaries navigable. Read third time and passed.

But little business of any importance was transacted during the day, all the interest seeming to center on to-morrow's proceedings, when it is hoped the Woman Suffrage bill will meet with a fair hearing.

NOTES FROM THE CAPITAL

SALEM, November 8, 1873.

TO THE EDITOR OF THE OREGONIAN:

The principal source of excitement for this week has been the examination of J. J. Killinger for the crime of rape on the person of one of his daughters, aged about 11 years of age. The Justice's Court before which the examination was held bound the accused over to answer before the Circuit Court which meets next Monday. Being unable to procure bail he was sent to jail. Killinger is a shoemaker by trade. He has resided in this city for several years working at his trade. He certainly has not good sense. In fact some of his actions show that he is partially insane, especially on religious matters. He is possessed of an insatiable desire to preach, and to be called Reverend is the acme of his ambition.

The rain which has been falling during the last few days is of almost inestimable value to the farming community.

On next Monday the Circuit Court for this county will hold its first session in the new Court House, the pride of Marion county, I might say. The building is now completed, and it will compare with any in the State, if it is not equal to any on the coast. The old jail is being removed and the block cleaned off and everything placed in "ship shape and Bristol fashion." The total expense now foots up about $100,000.

The State Board of Equalization have made their report to the Governor, and very kindly allowed me to copy it, together with the Rules for Assessors and Rules for County Boards of Equalization, which I transmit herewith. The report contains a great amount of information for your numerous readers which I hope they will read with much pleasure and profit.

The official returns of the recent election were canvassed this afternoon. I send the result of the canvass.

STATE BOARD OF EQUALIZATION

REPORT OF THE BOARD TO HIS EXCELLENCY GOVERNOR GROVER—SOME VALUABLE HINTS—RECOMMENDATION THAT ALL COUNTY OFFICERS BE SALARIED AND THAT FEES BE ABOLISHED—[illegible] WHICH EMBARRASS THE BOARD—RULES FOR COUNTY BOARDS AND FOR ASSESSORS—INTERESTING STATISTICS, ETC.

OFFICE OF STATE BOARD OF EQUALIZATION,
SALEM, Nov. 1, 1873.

To His Excellency L. F. Grover, Governor of Oregon—SIR: The law makes it the duty of this Board to communicate with you in relation to the assessment and collection of the revenue. In compliance therewith we are gratified to be able to say that there has been a positive though partial improvement at least in the manner in which the result of the work of assessing has been prepared for the examination of the Board. Instead of various sized and unsuitable books, and in some cases only sheets of paper loosely fastened together, and all more or less differing from the form prescribed by law, which heretofore comprised the record of the State assessment, this year the assessment rolls are uniform in appearance, strongly and neatly bound in volumes, and measurably after the tabular form required by law.

For the first time in the assessment of the State, the different kinds of property are shown in detail in appropriate columns. This is chiefly due to the measures adopted at the last session of the Board to accomplish such an end.

We regret to observe that too many of the Assessors are inefficient, either through incompetency or disinclination to do their duty in the manner directed by the law. Their neglect or failure in the performance of their official service is shown in the under valuation of property, inaccuracy in aggregating individual assessments, as well as in the addition of columns, carelessness in not balancing each page of the assessment roll so that the addition of the columns of values shall correspond with the sum total of the column of "gross values," a disregard of the proper manner of qualifying a taxpayer when rendering an account of his property and indebtedness, in not administering the oath in the form of an affidavit setting forth the items of taxable property as well as indebtedness, instead of a verbal oath; deducting exemption from the assessment of real instead of personal property. But the most serious inefficiency of Assessors is in assessing property far below its actual cash value. Those assessors who have permitted themselves to be guided by the rules framed by the Board for that purpose have more satisfactorily performed their work, although the complete cash valuation is yet to be reached.

We are sensible of the ungraciousness of the work that is assigned us, that the more efficiently we may do our part the more may prejudice and self-interest disparage and misjudge. Yet we have no choice other than to do our duty to the best of our knowledge and ability, and leave the result to the determination of experience and time.

It is one of the objects of good government that its burdens should be borne equally by all—that no one should be compelled to sustain more than a just proportion of its expenses. When all property is completely listed at the true value, inequality and unfairness in taxation will no longer be experienced, and the less the expense of government the less should be the tax. The accomplishment of an object so desirable and beneficial as a reduction of the ratio of taxes can only be attained by a full and complete exhibit of all the assessable property of the State at its actual cash valuation, as the law requires. The more numerous the sources of revenue the easier is the obligation of the taxpayer fulfilled. The larger the amount of assessable property the lower will be the rate of taxes and the greater the relief from that burthen. To illustrate: if the taxable property of the State could be returned at one hundred millions of dollars, which the Board estimates to be nearer the cash valuation than the amount actually returned—there would be no necessity for a further continuance of the State tax at five and a half mills, as it could safely be reduced under such circumstances to less than one half that figure, with a corresponding reduction in the taxation for county purposes.

It is suggested that incompetency is the cause of inefficiency in Assessors—that under the present system no better ability can be obtained without increased compensation. In view of future legislation we would advise that Assessors be paid an annual salary sufficient to insure that talent and competency so essential for a position of such importance. There is no county official whose intelligent and energetic service comprehends more beneficial results, or whose duties are of more vital consequence. The compensation could be graded according to the work to be performed. The term of office should be extended to at least a period of four years to render the incumbent more independent of interested influences and to enable him to secure to the public the value of his experience.

In connection with the subject of taxation we would further suggest the advisability of paying all county officials by a stated yearly salary instead of by fees as at present, and that the fees for services be collected as usual and transferred to the County Treasury. We are assured that after paying [illegible] for the very best ability there would remain in the Treasury, under such an arrangement, in many counties, a large surplus [illegible] with which to liquidate county liabilities and thus relieve the oppressiveness of county taxation. It would also be a movement in the right direction and a help to the taxpayer to consolidate rather than increase the number of offices. The necessary legislation should be procured that would require the number of positions [illegible] to be consolidated into one, especially in counties where there are city franchises, so that in such counties there would need to be but one Assessor, one Collector, one Treasurer for county, city and perhaps school district purposes.

The Board was very considerably delayed in the work of equalization, in the first instance by the inaccuracies and incompleteness of the greater number of the assessment rolls, the correction of which occupied a good deal of time and attention, and in the second place the session was prolonged by the failure on the part of some of the counties in the transmission of their assessment rolls, several of which were not received until late in the month of October.

Additional rules have been formulated for Assessors which it is hoped may render their duties more intelligible and secure greater efficiency of service.

Some of the County Boards of Equalization have misinterpreted the law under which they act, and while they were in session for the full period of the term they sat to hear and answer complaints only, and did not examine and correct the assessment rolls of their respective counties, or increase or reduce the valuation of property assessed where such action was necessary, as the law provides. Attention has been called to this omission in the performance of their duties, with the hope that hereafter greater efficiency will be manifested on their part, for without it the labors of the State Board are largely increased and to some extent rendered nugatory.

The revenue system of the State is very defective. Its thorough amendment is of the first importance. The necessity of the case is so imperious as to demand a complete revision of these laws as soon as possible. They were enacted from time to time without reference to the present system of equalization, and the State and county Boards of Equalization seem to have been created without regard to the revenue laws, and consequently difficulties are constantly arising to retard and embarrass the action of these organizations in the exercise of their functions.

The powers of the State Board should be enlarged or made more definite. The number of its members should be increased to at least five—one from each judicial district—which would have a tendency to place the Board in possession of increased local knowledge for the more satisfactory performance of its duties, more certainly insure a quorum at all times during its session, and in the wider division of its labors secure a much greater efficiency.

It was undoubtedly the intention of the Legislature in making it the duty of the Assessor to deduct from the taxable property of the taxpayer his indebtedness within the State, that the indebtedness so deducted in the form of obligations to pay in the possession of the creditor should be subject to taxation as the property of the creditor. If otherwise, the law is invidious and unjust, and should be repealed, as many of our merchants having liabilities due elsewhere are precluded from the benefit of the law. The Board have therefore directed Assessors hereafter in all cases not to deduct indebtedness unless the names of the creditors are given. It was compelled to this course as a matter of right to the State and to the taxpayer, as well as justice to those who are excluded from taking advantage of the law, and more particularly because of the enormous amount of indebtedness appearing as an offset to assessments. The aggregate indebtedness throughout the State, which taxpayers have the benefit of, amounts to $16,621,114, while the column of money, notes and accounts, where said indebtedness should appear, aggregates only $9,880,672, which is too sufficiently [illegible] to need further comment.

The assessable property of the State for the present year was returned at $57,682,691. Deducting indebtedness and exemption amounting to $16,982,542, the total taxable property amounted to $40,700,150. The result of equalization increases this sum to $45,688,924.94.

With the exception of Multnomah county the assessments in the outside or border counties were nearer a cash valuation than in the counties situated in the Willamette valley, which include the more desirable and valuable lands, because of cultivation and convenient means of transportation of products to markets of exchange. The assessments of agricultural lands generally, with the exception of five counties, were so palpably below the actual cash valuation as to make an equalization by an additional per centage on the gross assessment a matter of the sheerest justice. So unperfect and unfair have been some of the assessments, that lands for which $20 per acre have been offered and declined, have been assessed at $8 per acre; and in no county in the Willamette valley, excepting Multnomah county, have the agricultural lands been assessed at any figures approximating a cash valuation. Also several species of personal property have been assessed very much below a cash valuation, but as there was no assessment in a single instance approximating a cash valuation of such property, no increase could be made, the Board having to do only with the equalization of assessments. These facts must be borne in consideration in reviewing the work of the Board in the matter of equalization.

For the first time in the statistics of the State there is an exhibit of the number and value of the different kinds of live stock. It affords gratifying information. The more diversified the products of a country the more assured is its prosperity and wealth.

In the counties east of the mountains the assessment of live stock generally approached nearer the cash value than elsewhere, save in the one county already named. In three of the chiefest agricultural counties of the State, convenient to water and railroad transportation, the average assessment of cattle was from $8.96 to $11.0[illegible] per head, while in the two extreme southern counties, Jackson and Josephine, the average exceeded $16 per head. In the counties of Clatsop and Columbia $19.50 and $21.98 respectively, and in Baker, Grant and Wasco counties from $15.66 to $17.[illegible]

In equalizing the assessments of the lands belonging to the grants to wagon road companies, comprising 484,[illegible] acres, the Board took into consideration the fact that they were withheld from present settlement for speculative purposes, and deemed that the Government price, $1.25, at which they were assessed in one county, although at a higher price in another, was a proper assessment for such lands, excepting those in Wasco county, which were equalized at 10 cents an acre on account of their remoteness and inferior character of soil. The lands of the European and Oregon Land Company, embracing [illegible] acres, were likewise viewed as held for speculative purposes, and their assessment was equalized to the highest assessment—$1.50—in the central counties, and in other localities at $1.25 per acre. Some of the lands of the railroad grant have been sold at much higher figures; they were all conveyed to the present company at $1.25 per acre, and are held for sale at a price beyond that rate.

In conclusion, we have the honor to submit the accompanying tabular statements as part of this report. It is believed that they contain valuable statistical information that may be useful in the future, in legislating and otherwise; at all events they will serve to show in part the labors of the Board in the duties of equalization.

Exhibit A is a table of the acreage, average value per acre and gross value of land exclusive of grants to corporations, in each county of the State, and per cent of increase after equalization. It shows an aggregate of [illegible] acres and the assessed value of [illegible], with the value as equalized of [illegible]

Exhibit B is a table of the number and gross and average values of stock in each county of the State, and per cent of increase after equalization. Horses, assessed value, $2,669,617; equalized value, $3,090,2[illegible]; cattle, [illegible] assessed value [illegible]; sheep, assessed value [illegible], equalized value [illegible]; swine, [illegible] assessed value [illegible]; equalized value [illegible]

Exhibit C is a table of the property of corporations, showing description of property owned by each company, the assessed value thereof, the per centage added or deducted, and the equalized value. This exhibit gives 1,274 miles of telegraph line, assessed value [illegible], equalized value [illegible]; 257½ miles of railroad, equalized at $5,[illegible] per mile [illegible]; [illegible] acres of land of European and Oregon Land Co., assessed value $146,098.93, equalized value $268,121.40; 484,[illegible] acres of lands of wagon road companies, assessed value [illegible]; equalized value $47[illegible],925.

Exhibit D is a table of the aggregate property in each county of the State, with the values as assessed and equalized, showing the total taxable property of the State as equalized to be $45,688,924.94.

All of which is respectfully submitted,

N. H. GATES,
GEO. L. CURRY,
W. F. ALEXANDER.

Rules for County Boards of Equalization.

Rule 1. The County Board of Equalization of the several counties in this State are requested to cause a certified copy of the assessment rolls of their respective counties, after equalization by them, to be forwarded at the expense of the county to the Secretary of State, before the second Monday of September in each year, for the examination and action of the State Board of Equalization. And the collection of taxes should not proceed until said rolls have been examined and passed upon by the State Board of Equalization, which in all cases will be done without delay.

Rule 2. In order that the present inequality in the assessed value of real and personal estate in the various counties of the State may be remedied, and the subsequent labors of this Board facilitated, the County Boards of Equalization are recommended to enforce the rule that the actual salable cash value shall, in all cases, be the standard of assessment both of real and personal property. The root of the inequality complained of, is in the arbitrary standard of appraisement fixed by Assessors, more or less below cash value.

Rule 3. The Assessors have been required to add up all the columns of the assessment rolls and show the aggregates. The County Boards are requested to see that this duty is not neglected by the Assessors.

Rule 4. The County Boards of Equalization are required by law "to examine and correct the assessment rolls of their respective counties and to increase or reduce the valuation of property assessed," and not alone to sit, hear and determine complaints of over valuations.

Rule 5. Assessment rolls after equalization by County Boards, must be transmitted to the Secretary of State on or before the first day of October, or the Assessor or Clerk, as the case may be, will be proceeded against for a failure to perform his duties as required by law.

Rule 6. That the State may receive its due proportion of the tax on property omitted to be assessed by the Assessor and afterwards found and taxed by the Collector, it is directed that the County Boards cause the Secretary of State to be notified by the Collectors on the completion of each year's collections, of the amount of the supplementary assessment and collection.

Rule 7. To insure the improvement of the system of assessment, the County Boards are requested to cause the Assessors to conform to the rules and regulations framed by the State Board for their observance in discharge of their duty, with more strictness than heretofore.

Rules for Assessors.

Rule 1. County Assessors are required by law to commence their service on the 1st day of March, and a failure to do so, or to complete without delay the assessment of their counties, and return their assessment rolls to the County Boards before the last Monday in August, is not only contrary to the law which they have sworn to observe, but seriously embarrasses and delays the work of the County and State Boards of Equalization.

Rule 2. It is essential that the assessment rolls of the various counties should be alike in form and style, and in order to insure this the Secretary of State will transmit three blank assessment rolls to each county and the Assessor is enjoined to observe the form, and make his entries in accordance therewith.

Rule 3. The assessment of every piece of property assessed must be placed in some appropriate column of values before it is placed in the column denominated "gross value of all property," in order that each page of the assessment roll shall show that the sum total of the columns of values, when added together, equal and correspond with the aggregate of the column of "gross value of all property," and each Assessor is required to add up the columns of his assessment roll, and prove, in this manner, that each page of it balances before presenting it to the County Board of Equalization.

Rule 4. To avoid the numerous omissions now made in the assessment of real estate, Assessors are required to procure the maps, as the law directs, of the real estate in their respective counties showing the actual present owner of each town lot and tract of land of which the title has passed from the United States or the State of Oregon.

Rule 5. No taxpayer's name should appear in different places on the same roll, but all his property should be assessed continuously after the entry of his name.

Rule 6. The description of real estate upon the assessment roll should show the section or part of section, the township, range, the number of acres, the cash value of each piece or parcel and the total value.

Rule 7. Town and city lots must be described by the number of lot and block, with the name of the place, and must be assessed separately from other real estate, and the cash value of each lot or part of lot be entered by itself in the appropriate column, and the cash value of the improvements upon each lot must be entered separately in the column of "value of improvements."

Rule 8. Mills, canals, mining ditches, telegraph lines, railroads, etc., must be assessed at their cash value, and entered in the assessment roll in the column denominated "value of all improvements."

Rule 9. Assessors must require the names of creditors and the sums due to them to be given in all cases where the indebtedness within the State is to be deducted from the taxpayers' taxable property, or the said indebtedness must not otherwise be allowed. And the said creditor or creditors must be assessed for the amount due them in case they have made no previous return of the same in their statement of taxable property.

Rule 10. When a taxpayer owns taxable property in two or more counties he should have the benefit of his indebtedness after naming his creditors, in proportion to his taxable property in such counties.

Rule 11. On entering upon the discharge of their duties the Assessors shall furnish by mail or other convenient method to each taxpayer within their respective counties, a blank form substantially as follows, requiring the said taxpayer to fill or cause to be filled the blanks in said form with a true statement responsive to each question therein, and the Assessor shall give reasonable notice of the day or days when he will be in a stated precinct to receive the said statements of property and administer the oath to the taxpayer, which said statements and affidavits shall be preserved by the Assessor, and turned over to his successor in office.

I, —— ——, do solemnly swear that the foregoing list includes all my real and personal property within the State of Oregon, and that the statement of my indebtedness hereto appended, is true and that no part thereof has been deducted from my assessment in any other county in the State.

Subscribed and sworn to before me this — day of —— A. D. 187 .

—— ——, Assessor.

Rule 12. The Assessor as soon as he receives a statement of any taxable property situated in another county must make a copy of such statement for each county in which the same is situated and transmit the same by mail or express to the Assessor of the proper county, who must assess the same as other taxable property.

Rule 13. The Assessor must collect the taxes on moveable personal property in the following cases:

1. When from any cause he believes that the person who owns or controls the property is about to remove or dispose of such property whereby the tax may become delinquent.
2. When in the exercise of a sound discretion he believes that the payment of the tax depends on its immediate collection.

Rule 14. The Assessor is governed as to the amount of taxes to be by him collected on movable property, by the State and county rate of the previous year.

Rule 15. In assessing property, due regard should be had to locality, nearness to market and to all particulars affecting the salable cash value of the same, and in all cases the standard of valuation both of real and personal property shall be the actual cash value.

Rule 16. The Assessor shall deduct the $300 exemption allowed by law only from the personal property of householders, and to be allowed to householders only, and not business firms, and where the personal property is less than $300 the amount noted on the roll should only equal the amount of such personal property.

Rule 17. The Assessor himself, and not the assessed, should be the judge of values by personal inspection, whenever practicable.

Rule 18. The capital stock, and other property, of all banking and other companies, where not otherwise more convenient, should be assessed to each company in its corporate name.

Rule 19. In cases where parties are bondsmen or sureties for others such obligations do not constitute an indebtedness to be allowed as a set off against taxation.

Rule 20. Assessors are reminded that the law requires them to collect the poll tax as it is assessed.

Rule 21. The law makes it the duty of the State Board of Equalization, in case "there is reason to believe that any Assessor has failed or refused to do any of the duties imposed upon him by law," to "make a thorough investigation, and if after such investigation, it appears to said Board that such officer has failed or refused to fully discharge the duties of his office, the Board shall certify the fact to the District Attorney," etc.

THE RESULT IN OREGON

From the official vote published in another column it appears that Oregon which gave Jos. G. Wilson Republican candidate for Congress in June 1872 a majority of 850, and to Grant in November 1872, a majority of 4,069 now sends J W Nesmith Democrat, to Congress by a majority of 2071 Hiram Smith his Republican competitor received less than one half of the Republican vote—46 per cent And yet he was the nominee of the party regularly chosen by a Convention of delegates from the different counties styling themselves Republicans He had to begin with all the prestige of a brilliant victory of the party in November last He was a man of unblemished character he was universally respected throughout the entire State and to his acknowledged integrity were added business qualities of an excellent order Why was he beaten?

We suppose there is not a Republican in the State of Oregon who is not thoroughly acquainted with the causes which led to this overwhelming defeat We need refer to them but briefly

First the Convention which nominated Hiram Smith attempted to saddle upon the party an endorsement of the heinous social crimes of Senator John H Mitchell The story of that man's iniquitous life is known of all men It is not to our purpose to repeat it here This endorsement was made in the face of the protest of the OREGONIAN, and in defiance of the moral sentiment of the people of Oregon Only the day before it was accomplished the OREGONIAN advised the Albany Convention not to introduce the subject and warned it of the result which must inevitably follow As the oldest and most influential Republican journal in the State it had a pre-eminent right to advise on matters of party policy Notwithstanding those warnings the resolution of endorsement was forced upon the party Through the exciting campaign which followed, the OREGONIAN never flinched from the stand it had taken It urged the Republican voters of Oregon to maintain the ancient purity of the party to hold each man to his own conscience, to rebuke the fraud which sought to make the Republican party a sharer in the obloquy which had justly fallen upon one of its servants Upon the other hand, it was urged by the supporters of the resolution, through their recognized organ, the *Bulletin*, that the first duty of Republicans was to party that party fealty was superior to all considerations of right and questions of conscience, that to admit the right of the people to discuss the morals of politics would be an admission fatal to the party and destructive of all organization The issue was made up The battle was fought, and the majority of the Republican party in Oregon vindicated and endorsed the principle taught by the OREGONIAN Let it be distinctly understood that the stake for which the bitter fight was made was, as we have before expressed it "Every man, every Republican has a right first of all to his own conscience"

Included in this was another expression of the popular will, and all politicians will do well to take heed the Republican party of Oregon will not submit to the control and domination of any faction or ring of men whose aims are not so much the success of the party for the party's sake, as their own personal ambition and aggrandisement It was proven to the entire satisfaction of the thinking people of Oregon that the Albany Convention was largely made up of men who were appointed to office by Senator Mitchell, and who therefore, felt a certain degree of dependence upon and obligation to him, and of men also, who expected political favors at his hands The Federal service of the State is chargeable with the adoption of the resolution of endorsement as well as with the defeat which followed it During the campaign, and since the election, several of these Federal officers have alleged that they were opposed to the introduction and adoption of the resolution Foremost among these disclaimers is H W Scott Collector of Customs of this port And yet he supported the resolution, by tongue and pen, after its adoption The plea which these men now use on the streets they are too cowardly to advance in the columns of the *Bulletin* We call the Republicans of Oregon to witness that that paper has never once said it regretted the scandalous action of the Albany Convention If the resolution was wrong before its adoption it was wrong after its adoption, and these men only stultify themselves when they say they were opposed to it throughout

It has been urged in explanation of Hiram Smith's defeat that this was an "off year" in politics This is simply nonsense The people were stirred up in every imaginable manner They were plead with by the OREGONIAN and threatened by the *Bulletin*. It is arrant nonsense to explain the defeat by the "off year" subterfuge

Of Hiram Smith we have but little to say. He was warned before and after his acceptance that no man could carry the load imposed upon him He shouldered the load in defiance of the protestations of his best friends among which we number ourselves, but before he had staggered half way on his journey he fell sprawling upon the ground More than that Mr Smith always had the assurance that if he would withdraw from his support of the resolution the OREGONIAN would labor heartily for his election For reasons with which he is acquainted quite as well as we are he was forced to a knowledge that his candidacy was based on the resolution He has been badly beaten and we are heartily sorry that so estimable a gentleman should be sacrificed to the cupidity of a ring of politicians [illegible]

We refer once more to the senseless accusation that the OREGONIAN is a Democratic journal The vote shows that 46 per cent—a majority—of the Republican party supported the OREGONIAN We need no better defense than these figures The *Bulletin* must remember that it is now in the minority And while Hiram Smith received the vote of forty six per cent of the party he must be aware of this fact which is recognized by all candid men that fully twenty per cent of those who did support him voted under protest

But the Democratic party has little reason to feel proud of its victory Mr Nesmith received only 56 per cent of his party strength This kind of victory is a feint less It is an appeal of Solomon The Republicans of Oregon have no intention of surrendering the Government of this country into Democratic hands The only foe they have to fear is one of their own household They have once [illegible] it once Will they maintain their position

That ominous 46 per cent is fraught with lessons of wisdom to the men who brought defeat on the Republican party on the 13th of October Will they heed them

THE OHIO ELECTION

The *Bulletin* asks the OREGONIAN to give the reason for the defeat of a part of the Republican ticket in Ohio It says we will probably charge it to Hipple and the Custom House ring" If the *Bulletin* will carefully note the editorial article from the Cincinnati *Gazette* one of the most influential of the Republican journals in the West, which we publish elsewhere it will get all the information it asks for, and will learn that there is not so much difference between the cause of the defeat in Ohio and the cause of the defeat in Oregon

Official returns from the Ohio election show that the popular vote for Governor was divided as follows For Allen (Dem) 214,085 for Noyes (Rep) 21 817 for Stewart (Temp), 10,040, for Collins (Lib), 1991 Total, 448,481

The vote for Secretary of State last year was Wikoff (Rep) 265,930 Wiley (Dem), 251,780 Total, 517,710 This shows a falling off in the October election of 69,229 votes of which two thirds were Republican

THE RESULT IN OHIO

(From the Cincinnati Gazette

The Democrats in a small vote have carried the State of Ohio for Governor and Legislature The Lieutenant Governor and State officers are Republican From returns received the total vote we judge will show a falling off of 75 000 The decrease is greater on the Republican than on the Democratic side and this accounts for the election of Allen The Democrats gained nothing in Ohio Their aggregate vote is less than it was a year ago and had the Republicans voted Allen would have been beaten out of sight

But the Republicans have lost the State and for the first time in eighteen years a Democrat will occupy the gubernatorial chair of Ohio This occurs too in the face of a large Republican majority For the silent vote that secured the success of a minority party there is of course a cause Republican voters do a powerful amount of thinking, and they have a way of expressing their opinions sometimes by positive voting and sometimes by not voting at all In this case the latter mode was chosen Thus the people have given a warning to the party in power They have as much as said 'Reform abuses or retire from office We serve notice now that the Republican party must clear its skirts of salary grabs and Credit Mobilier scandals, and give evidence of general reform or we will vote against it next time For the present we will indicate our dissatisfaction by staying at home If this warning is not heeded, we will throw stones next time

This is the meaning of the election as near as we can interpret it

Pains were taken during the campaign to show that the Republicans and Democrats were responsible for the salary grab and the Credit Mobilier frauds for land grants and other extravagant measures but the Republican party had a clear majority in Congress and a President possessing the veto power and therefore they could have defeated all the objectionable schemes, and, failing to do so they are held responsible for them This is the way the people look at the matter and Republicans may as well understand that so long as they are in power in the nation the Republican party will be held responsible for national legislation and the general management of the public business This is the verdict of the Ohio election

Fortunately the Republicans have a large majority in both branches of Congress and they will therefore have an opportunity to reform abuses about which the people have expressed themselves If advantage is taken of this opportunity the Ohio Republicans will fall into line again next fall Otherwise the silent vote which caused defeat this year will assume a positive shape next time

This is not the first time that Ohio Republicans have expressed dissatisfaction without changing their party relations In 1861, David Todd was elected Governor by 55,203 majority The management of the war was not satisfactory and in 1862 the Democrats carried the State by 3 577 majority The next year John Brough was elected Governor by 101 099 majority Heavy Republican majorities were sustained until 1867 when G H Pendleton, on the greenback question came within 3 000 votes of beating Hayes for Governor The next year the Republicans carried the State for President by 41 426 In 1869 this majority dwindled to 7 518 In 1870 this majority was increased to 13 881 and in 1871 Noyes was elected Governor by 16 044, and in 1872 Grant carried the State by 34 268 Now the Democrats elect their candidate for Governor by a few hundred votes Next year if our Republican leaders in the meantime *deserve* success the usual majority will be obtained for the Republican party But to secure this result it must be earned The wishes of the people must be respected Congress must give evidence of honesty and economy and there must be no more appointments of men who were connected with the Credit Mobilier scandal or the salary grab to office Upon this point the great mass of the Republican party are in dead earnest and they can be neither coaxed nor bullied into changing their minds

Never were the people more sensitive on the question of corruption than at this time and the leaders of the party should see that no man with even a doubtful character is permitted to secure a standing in the party It is claimed that the Republican party is capable of purifying itself This claim can only be made good by doing the work Congress will have plenty of time before another autumn to satisfy the people upon this point and upon the success of Congress in this direction will depend the future of the Republican party

MONDAY MORNING NOV 10 1873

CITY.

A Disabled and Destitute Soldier.—At present there is a brave soldier in this city who has rendered the country gallant and meritorious service and is certainly deserving of a better fate. His name is Patrick Doyle. He has been a soldier for nearly nine years, during which he received four severe wounds. During the late civil war he was in the engagements at Fairfax Court House and Culpepper and received two severe wounds. He belonged to the 13th New York Cavalry under Capt. Brown. Doyle was also in the Modoc war where he received two severe wounds—one in the right forearm and one in the hip. Last July he was reported by Gen. Wheaton as unfit for re-enlistment and honorably discharged from the service. This poor fellow is rendered totally unfit for manual labor in consequence of the serious character of his wounds. He has a wife and is without a dollar in the world or the means to earn a livelihood. He was induced to come to Portland from Camp Warner in the hope that Gen. Davis could do something for him but learned to his discomfiture that nothing could be done now to relieve his present destitution or ameliorate his condition. If the Government has neglected to make provisions for her disabled soldiers certainly this community ought not to suffer such persons whom chance throw in our midst to suffer for the necessaries of life. We learn that a gentleman will call on our citizens to-day and solicit aid in behalf of Doyle. We hope that all to whom an appeal may be made will respond with their proverbial liberality.

An Enterprising Movement.—We acknowledge the pleasure of a call last evening from J. C. Davenport Esq., an old and well known citizen of Marion county. Mr Davenport came to Oregon in 1851 and has for years been engaged in merchandising at Silverton where he has long been regarded as an enterprising citizen and a gentleman of excellent business qualifications. He is en route for the Palouse country, where he contemplates a permanent residence. Mr Davenport brings with him all the necessary machinery for a grist mill, which he intends to erect immediately on arriving at his destination. The mill will be erected at or near Colfax. For the present only one set of burrs will be run, but another pair will be added next spring. A grist mill has long been one of the most necessary and greatly needed establishments in that portion of Washington Territory. Last year the surplusage of wheat was in the vicinity of 100,000 bushels. There was no mill in that whole section of country and very imperfect facilities for transporting grain to market. The erection of a mill will be of great benefit to that portion of Washington Territory which is said to equal in fertility any other region on the coast. In addition to constructing a mill, Mr Davenport proposes to engage in merchandising at Colfax. He will start this morning.

Change of Steamers.—Last Saturday a transfer of steamers took place between certain well known parties, resulting in an entire change in the ownership of the *Vancouver* and *Carrie*. The *Carrie* which has long been owned by Messrs. Kingsley and Toner, was sold to the Willamette River Transportation Company who in turn disposed of all their interest in the *Vancouver* to Messrs Toner and Gray. The *Carrie*, which had thus been acquired in the transfer, was sold by the company to Capt. West where she will be employed in connection with his extensive fishery. We learn that the *Carrie* brought about $4,000, and the *Vancouver* in the vicinity of $9,000. Messrs Toner and Gray have placed the *Vancouver* on the line between Portland and Vancouver, in place of the *Carrie*. This latter steamer will go down to Westport this morning.

Held to Answer.—Edward Kennedy, a miserable low creature, who has figured prominently in the Police Court records for several years for almost every crime known to the law, was arrested last Saturday morning on the charge of adultery. A preliminary examination of the case being held Kennedy was bound over in the sum of $500 to answer the charge before the Grand Jury. Not being able to give the required bonds he was committed to the County Jail. This same fellow was up before the Grand Jury only a few weeks since charged with an assault with a weapon. He was not indicted, however. Kennedy has already cost the tax payers of this county several thousand dollars and it is to be sincerely hoped that he will be placed where he will cease to annoy the community, and render good service to the State.

Steamer Oriflamme.—This steamer sailed from San Francisco last Saturday morning having on board the following passengers: Mrs Capt. Boyle & child, Mrs. Baring, G W Woodham, Miss E W Robbins, Miss D Elmer, L. Hall & wife, A Williams, W Nuckells, R T Sturtevant, wife & child, J D Cox, wife & 5 children, E P Thompson, J M Caywood, D Wilson, E C Brigham, S W Smith Jr, J M Howe, E S Fowler, Dr H C Bostwick & wife, F A Hatch, F Dunning & wife, A P Anderson, Miss M Woodham, Mrs A B Elmer, George Hall, wife & 2 children, Mrs Bloomfield, W Logget, C C Kane, J W Sturtevant, wife & child, William Moore, Ely Heath, A P Dennison, H M Chase, L C Henrichsen, —— Watson, H M Stuart, W W Miller, D Decker, wife & child.

Jib Boom Broken.—While the barkentine *Portland* was being towed over to the east side, on Saturday, quite an accident befel that neat craft. When near the wharf, the steamer cast off her lines to let the vessel float slowly up to the wharf. By some means a line could not be got out aft quick enough to check the boat and avert a collision. She moved on and struck the wharf violently. The end of the jib boom was broken short off and a large hole stove in the side of the wharf. Fortunately no other or more serious damage was sustained by this new and handsome vessel.

Thrown from the Track.—Quite a serious mishap befel the locomotive "Yamhill" yesterday morning. As the passenger train bound south was nearing the Fourth street bridge the locomotive and tender were thrown from the track. The accident was occasioned by the switch being left open. No further damage resulted than the locomotive being turned on its side and having several springs and pipes broken. Fortunately no one was injured. After a short delay another locomotive was obtained and the train proceeded to its destination.

Tested.—The boiler of the steamer *Vancouver* was tested by Inspector Lotan last Saturday. The boiler was subjected to a hydrostatic pressure of 150 pounds to the square inch. Not a bolt started and no indications of weakness were visible. The certificate was renewed and the boat allowed to carry 100 pounds of steam. Capt Flanders inspected the hull and found it in a sound condition.

Steam Raised.—The steamer *Shoo Fly* which has been rebuilt at the lower sawmill is finished and ready for service. Steam was raised on board yesterday. We learn that this boat will be used in the Lower Willamette and Columbia rivers for general towage and lightering purposes.

Watchmaker.—N. B. Askins from the city of Chicago, a practical watchmaker with more than twenty years experience will repair watches, clocks and jewelry in the best manner and at [illegible] prices and no mistake, at the [illegible] of G A Steel & Co [illegible] street.

Our [illegible] Society.—Twenty seven persons were present at the last meeting of this society. The [illegible] men of the town are cordially invited to attend. The place of meeting is in the hall over Keller's butcher shop, corner of Madison and First streets.

Large Raft.—The *Mary Bell* came up last night having in tow a large raft of logs. She had nearly one million feet of lumber in the raft. A portion of the logs were for Abrams & Hogue's, and Weidler's sawmill.

The Shoalia.—This new tug having been completed, steamed down the river last Friday to Astoria. It was all ready for active service.

Annual Ball.—In order to raise the necessary funds to refurnish their hall Willamette Engine Co No 1 propose to give their annual ball on Christmas eve. Ankeny's hall has been secured and a Committee of Arrangements appointed who will insure the success of the proposed occasion. One is the oldest company in the Department and will likely be well patronized.

United States Prisoners.—U. S. Deputy Marshal Williams arrived here yesterday from Coos Bay whither he went last week. He had in custody two prisoners, a man named Thomas Hutchins and a Chinaman. Hutchins was arrested for cutting timber on Government land and the Chinaman for selling cigars without a license.

SCOTT CADETS.

An election of officers of the Scott Cadets was held last Tuesday at the Bishop Scott Grammar School for the ensuing year. At the conclusion of the military exercises in the afternoon, the company marched from the parade grounds to the recitation rooms headed by Mr. R. R. Anderson, Drill Master.

On motion, Prof Laing was chosen Chairman, to preside at such election.

On motion, George Wilson was elected Secretary.

Prof. Laing, after having stated the purposes of the meeting, appointed Archie Pease and W Jackson tellers.

The following officers were elected to serve for one year: Captain, E N Deady; First Lieutenant, E H Brooke; Second Lieutenant, George Upton.

The Captain then made the following appointments of non-commissioned officers: Orderly Sergeant, —— Barker; Second do, P Deady; Third do, L Seavy; Fourth do, R Morris; First Corporal, N Boyle; Second do, George Wilson; Third do, W Jackson; Fourth do, C Sprague.

Last Thursday a special meeting was held by the Cadets for the election of a Major.

The meeting was called to order by the drill master R. R. Anderson.

On the first ballot Mr Anderson was chosen by a large majority, after which the meeting adjourned.

There are at present forty-four members of the Scott Cadets. Drills are held each afternoon and the Company are making very rapid proficiency in a practical knowledge of military matters. Within four months time we feel warranted in saying that there will not be as finely a drilled company in the State as the Cadets. When a greater degree of proficiency shall have been attained, it is the intention of Mr Anderson to give a public exhibition drill. Scott's Military Tactics are used, also McClellan's. Arms and equipments, we learn, will soon be furnished the Cadets by the State.

Keep Out the Cold.—During the winter months everybody is anxious to avoid the severity of the weather and various modes are resorted to in carrying out the best means of keeping warm. While BECK & WALDMAN are selling clothing from their immense stock at extremely low prices it would be well to call in and select a winter suit. They keep the best, sell as low as any house, and do not propose to be outdone by any other house in the city. They are to be found at the old stand, S. W. corner Washington and Front streets.

Clothe Yourself.—Now is the time to make a purchase of winter clothing. If you have not done so make it a point to consult I. KOHN & CO., who can let you the finest assortment of goods ever displayed in this city. They have the largest store and are thus enabled to lay in an immense stock. There is no denying the fact. REPORT OF COMMITTEE

The Committee appointed to examine Rev W A Smick with a view to his ordination as an evangelist report that they are satisfied that Mr Smick is a regular graduate in literature and science; that he has fulfilled the full prescribed course in theology at Princeton; that he is a licentiate of this Presbytery; that he has given satisfactory evidence of usefulness in the ministry; that he is himself savingly acquainted with that Savior he preaches to others, and that his motives in seeking the full work of the ministry are just and evangelical, and that no obstacle is found in the way of his ordination.

We therefore recommend that, by way of additional trial, he preach a sermon this evening before the Presbytery on Deuteronomy 32d chapter 31st verse: "For their rock is not as our rock, even our enemies themselves being judges," and that if the way be clear that the Presbytery ordain him as an Evangelist, the ordination services being set for to-morrow evening in the First Presbyterian Church. Fred Brougham was on the stage; they took everything he had. They sent us away afoot before they got through all the mail and told me not to come back after my wagon till morning. Fred started a man to Winnemucca as soon as we got to Sharps; he will be there by daylight." Shepherd, agent for Wells, Fargo & Co at Winnemucca, writes on the morning of the 31st to Superintendent Morris, of Boise City, that the robbers got nothing from the treasure box. He had started two white men and some Indians in pursuit of the robbers.

TO WHOM IT MAY CONCERN.

DURING MY ABSENCE FROM PORTLAND ON account of sickness since the fire of Aug. 2 it was circulated to my prejudice that during my residence in Sacramento, California, and since my residence here, that I was guilty of dishonesty in my dealings by not paying my debts. Whilst engaged in business in Sacramento next door to Baker & Hamilton, I was burned out twice and flooded once, and as to my honesty in dealings I will refer you to Baker & Hamilton, Gillig, M[illegible] & Co., Mrs. Hopkins, Blacks Bros., Mayor Gr[illegible] (ex-Mayor), Gov Booth, F C Hayden and Mr Morrill of the *Sacramento Union*, Jas MacClatchy of the *Bee*, or any other person engaged in business in Sacramento. In Portland I have been in business nearly three years and refer to Ex Gov Gibbs, K Milwain, Hurgren & Shindler, Jas. Fryer and any one with whom I have had business connections. I came here with a generous heart and an honest hand, which I still have, although all my worldly effects were lost in the late fire here.

There are in this trestle thirty lengths of benches and it is three stories or sixty feet high. It had been blowing a norther during the night and the wind was still high, but this morning about 9 o'clock, the carpenters some fifteen in number, were at work as usual, the job being almost finished, when eighteen benches fell [illegible] and four of the men came to the ground with the heavy timbers. These were named John Fagan, Richard Durnan, Joseph Duncan and a man named Indrew a Swede, all residents of this city and all [illegible] injured. Fagan and Durnan are speechless, and are not expected to live through the day.

SAN MATEO, Nov. 8—A [illegible] tragedy has just occurred at Pescadero. About a year ago John Green and Charles Kinsey [illegible] property. Green traded his ranch at Pescadero with Kinsey for land in Ohio and other States. Upon Green's going East, he found that Kinsey did not own the land he represented to. He came back and commenced suit [illegible] Kinsey for damages. It also appears that Green's wife had a homestead filed on the land at Pescadero, and that she did not sign the deed, and on coming back went on to her land and took [illegible] of it four or five days ago, and was so living on it last evening. It is alleged that Kinsey hired a number of men, and together with Mrs. Kinsey they went last evening at 10 o'clock and attempted to oust Green and family and take possession of the house or burn it. Green forbid them coming on to the property and ordered them to [illegible] Dow, Alex McLean and Michael McLean, forced open the gate leading to the yard and made a rush for the door. Harvey Green, a brother, who was outside, they shot dead near the door. Green and family inside then opened fire upon the attacking party, when they [illegible] Dow was slightly wounded, also Alex McLean. John Green had one of his fingers shot off. Knowles, Justice of the Peace hearing that there was likely to be a breach of the peace, was on the ground before the attack and tried to prevent it. It is supposed he was struck by the wheel. In his pocket was a card upon which was written "I have lived long enough. Tell Charles L. Tildon to take my chest of tools and do as he pleases with them." CAPTAIN JACK'S BODY

On Sunday the 2d instant several teams loaded with Government stores from Fort Klamath arrived at Roseburg, and unloaded at the depot of the Oregon & California Railroad. Shortly after one of the teamsters went to the office of the *Plaindealer* and privately invited the editor to walk with him to the depot. The editor went and here is what he says of what he saw:

When we arrived there he pointed to a cask, which on close inspection, proved to be nothing more than a common whisky barrel marked "Society of Natural History, Washington, D C." We then wanted to know what was the meaning of this, when our friend informed us that the barrel contained nothing less than the body of the Modoc chief preserved in spirits and was being shipped this way ostensibly as Government stores, to prevent comment by newspapers and the public in general.

Our informant then proceeded to give the whole story, as he was present at the execution and had remained at Fort Klamath from the time the Indians were hung, until he left for Roseburg with his team and horrible freight. It appears Jack's body was never buried after the head was severed from the trunk, in fact if it had not been for the superstition of the [illegible] concerning their dead [illegible] which cause them to very often risk their lives in time of war to carry their slain from the field of battle, and apprehensions entertained as to how it would be received by the public mind, the body would never have been buried. As it was the Modoc chief only rested in his grave about ten or twelve hours. It was dug up before midnight on the day he was hung by soldiers detailed for that purpose, who filled up the grave and left it as though it had never been disturbed. The body was immediately carried to the Fort, and the head taken off and put up for shipment east. A few days after this the remainder of the body was placed in the barrel as already stated, and started for the same city for which the head was intended.

We have [illegible] to believe the story as told us is true in every particular. We have since questioned other [illegible] who came from Fort Klamath with our informant and they [illegible] the story and say it had become a subject of common conversation when they left. We did not see the body, nor would we have felt any better had we been allowed to contemplate the horrible spectacle of the headless body of a dead Indian preserved in alcohol. But we have no right to think that it was not there.

An Eastern dispatch says that the Director of the [illegible] that silver may [illegible] for small change on [illegible] circumstances in this country and Europe tending to lower the price of silver as compared with gold. The circumstances referred to actually exist but it may be questioned whether there are not other circumstances that will render it impossible to bring silver into general circulation for a long time to come. In 1862 silver was worth sixty-two and one-eighth pence an ounce troy until 1871 the decline was very slow the price in November of that year being 61 pence an ounce. In November 1872, it had sunk to 59⅝ pence and the latest quotation, within the present month was 57⅛ pence an ounce. This is a decline of more than two and a half per cent in two years. But on the other hand we are putting it out of our power to bring silver into circulation by shipping it out of the country. During the eleven months ended with May last, we exported nearly [illegible] million dollars worth of silver, or about ten million [illegible] than the gold export. But now silver is so much cheaper to export that we are getting rid of it more rapidly. As an illustration we take the exports of specie from New York, during the five weeks ending October 7. The exports of gold were only $516 790 while of silver in coin and bars we shipped no less than $2,718,736. We are receiving great quantities of gold, but almost no silver. We are sending away large amounts of silver, but very little gold. We are thus putting it out of our power to make general use of the cheaper metal, by depriving ourselves of our supply of the metal itself.

MARY AND I.

'Twas evening in May and the soft zephyr sighed
Through branches low bending above,
My Mary and I as we wandered along,
And whispered of beauty and love.
We'll make us a nest like the birdlings I said
And I never shall part any more.
"Oh yes, she replied and I can furnish it nice,
AT HURGREN & SHINDLER'S STORE.

Fair creature, there's many a wealthier man
Would gladly have you for a bride;
But no one can love you more fondly than I—
My treasure, my beauty and pride.
Oh I had a mansion with carpets of gold
And silver [illegible] cover the floor.
But smiling she said, "You can purchase the best
AT HURGREN & SHINDLER'S STORE.

I'll spread you a couch upon which to recline
When evening shall call us to rest,
Of the softest down — but — she said with a sigh
I like a hair mattress the best.
Then so it shall be, love, and tables [illegible]
And seats from some far distant shore.
Oh no, she exclaimed, They have [illegible]
AT HURGREN & SHINDLER'S STORE.

But Mary alas I must sadly confess
My means are but slender as yet,
To furnish a house in the style you demand
Would hopelessly plunge me in debt.
To ask you to share my poor lodgings and board
Is a [illegible] thing that I should deplore.
She said with a smile "You can buy very cheap
AT HURGREN & SHINDLER'S STORE.

To-morrow then love let us journey [illegible]
To the corner of Alder and Front street—
The numbers 98 and 100 (river side)
Where lovers so happily meet.
How many fond souls might be severed for years
From those they so fondly adore,
Were it not for the beautiful furniture they have
AT HURGREN & SHINDLER'S STORE.

They have marble top furniture, [illegible]
Of Bedroom furniture new,
With center tables and whatnots and mirrors great
And an endless variety of chairs not a few.
They do a fine business and with energy in hand
To purchase every style of furniture [illegible]
Are able to supply all the public demand
AT HURGREN & SHINDLER'S STORE.

We went Mary and I and I can never forget
The pleasure that beamed in her face
As she gazed at the marvels of beauty displayed
In HURGREN & SHINDLER'S place.
We furnished our home in an elegant style
Been married a twelve month or more
And Mary is singing this song to her baby,
Of HURGREN & SHINDLER'S STORE.

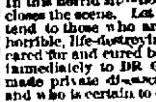
TO THE UNFORTUNATE.

NEW REMEDIES! NEW REMEDIES!

Dr. Gibbon's Dispensary,



623 KEARNEY STREET, NEAR COMMERCIAL, San Francisco. Established in 1854, for the treatment of Sexual and Seminal Diseases such as Gonorrhea, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency etc. Skin Diseases (of years standing) and Ulcerated Legs successfully treated.

DR GIBBON has the pleasure of announcing that he has returned from visiting the principal Hospitals of Europe and has resumed practice at his Dispensary, 623 Kearney street corner of Commercial, San Francisco where his old patients and those requiring his services may find him.

The Doctor has spared neither time nor money in seeking out new remedies, and has returned with increased facilities for the alleviation of human suffering.

Horrible Dis[illegible]

How many thousands of persons both male and female are there who are suffering out a miserable existence from the effects of secret indulgences, or from virus absorbed into the system! Look at the pallid emaciated and disfigured faces and [illegible] broken-down constitutions disqualifying them for the happiness of marriage or the enjoyment of life. In this horrid situation thousands suffer until death closes the scene. Let parents guardians friends attend to those who are suffering with any of these horrible, life-destroying maladies, see that they are cared for and cured before it be too late. Send immediately to DR GIBBON a physician who has made private diseases his especial study for years, and who is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important to those who are afflicted or to those who are interested in the welfare of their friends, to be careful of the many pretended doctors who [illegible] all cities, publishing their skill in curing all [illegible] in a few days imposing upon the public by [illegible] the names of eminent physicians from Europe and other places. Be therefore careful and make strict inquiry, or you may fall into the hands of charlatans.

Seminal Weakness.

Seminal Emissions, the consequence of self-abuse. This solitary vice or depraved sexual indulgence, is practiced by the youth of both sexes to an almost unlimited extent producing with unerring certainty the following train of morbid symptoms, unless combated by scientific medical measures viz. Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, disposition to shun society, loss of memory, hectic flushes, pimples and various eruptions about the face, furred tongue, fetid breath, [illegible], consumption, night sweats, monomania and frequent insanity. If relief be not obtained, should apply immediately either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure. Dr G will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of this complaint by either of the San Francisco quacks.

Married Men,

Or those who contemplate marriage, who are laboring under any of these fearful maladies, should not forget the sacred responsibility resting upon them, nor delay to obtain immediate relief.

DR GIBBON is [illegible], and will give to patients a written instrument, binding himself to effect a radical and permanent cure, or make no charge.

Cured at Home.

Persons at a distance may be CURED AT HOME by addressing a letter to Dr Gibbon, stating case, symptoms, length of time the disease has continued and have medicines promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions. By [illegible] Dollars coin, in registered letter through the [illegible] office or through Wells, Fargo & Co., a package of medicine will be forwarded to any part of the Union. All communications strictly confidential.

Caution to the Unfortunate.

Beware of the San Francisco quacks and pretenders who with bogus sworn to certificates [illegible] the unwary. Some of the self-styled doctors, whose names are to be found in the daily and [illegible] newspapers of San Francisco and other places are tradesmen and bees[illegible] too lazy to work at their trades. Some are [illegible] the shoemakers, [illegible] carriers, intelligence office keepers, etc. The only way to avoid imposition is to make inquiry—it will cost you nothing and may save you many [illegible] for as advertising physicians in eight cases out of ten are bogus, there is no safety in trusting any of them until you know who and what they are. Dr. Gibbon does not deceive people by exhibiting titles, certificates, pretended patients' letters, etc. Dr Gibbon will satisfy persons who may call at his office of his ability to treat diseases that he professes to cure.

Address DR J F GIBBON 623 Kearney street, corner Commercial, San Francisco. Postoffice Box 1,957.

REMEMBER TO PUT BOX 1,957 ON THE LETTER. Consultations FREE.

Correspondents will please inform DR. GIBBON that they read his advertisement in the DAILY OREGONIAN.
